2. [SECRET] How I Determine How Much Money I Will Make

Hi *|Fname|*

How much do you want to make this year?

Here is the deal. In the next few minutes I will help you predict how much you will be able to make this year, plus how to make sure that prediction comes to pass.

Now, get a pen and a paper. It is very important you get a pen and a paper before continuing with this email.

Done?

Alright.

Write the amount you will LIKE to make in 2019 on the paper. Let us assume you wrote 1 million naira.

If you divide that amount by the 12 months in one year, you will get how much you need to make EVERY MONTH to hit that goal in one year.

Let's do it together. If you divide 1 million naira by 12 months, you would need to make N83,334 naira every month to hit that target.

Now, let us go further. If you divide that monthly income by 30, you will get how much you need to make every day to hit your monthly target.

So again, let us do it together. N83,334 divided by 30 and you have N2,777 every day.

Which means, if you make N2,777 every day in one month you'd make N83,334 naira every month. And if you keep that up, you'd be able to hit your 1 million naira target – comfortably.

The question I'm sure going on through your mind now is – how can I make N2,777 every day. Now, what if I showed you what you need to do in order to hit double that amount. That is, instead of making N83,334 you end up making N166,668 – or more, every month.

Tomorrow I will show you exactly how to pull this off. And what you need to do in order to hit your daily, monthly and ultimately your yearly target.

Don't miss the email tomorrow

Be good.

3. *|Fname|*, Open For Your Special Gift

Hello *|Fname|*

Yesterday I showed you how to come up with your daily, monthly and yearly money targets.

Now that we are done with that, I have a very special gift for you.

What's this gift?

I am about to show you – right now, what to do to actually hit the target you set yesterday effortlessly.

This is the bad news; A Job can't help you.

Here is why.

If you get a job now, your salary is fixed – and NO MATTER what you do, you will not be able to pass that fixed point. Unless you get promoted. Or get a bonus. So what happens when you need more money to take care of your needs?

Wait for promotion?

NO!

What you need is something that you can do, that will allow you to increase your income anytime you want and still have the time to do other things you love, eg taking good care of your family.

The only way to achieve this goal is that you must SELL SOMETHING.

Yes, you heard right. Let's say you start selling something worth 5,000 naira. If you sell three, that would be 15,000 naira and all you need to do to increase your income is to get more people to buy more of what you sell.

But then, what can you sell, how can you sell it without stress and still make more than enough every month. I have made a little post to answer that question for you. In fact, I showed you exactly how I started with N10,000 only and made over a million naira in 4 months!

[Click here to discover the top online business](#) (insert www.themillionairehousewife.com/report) that would help you hit your goals very very fast, and still give you enough time to do other things.

Talk to you tomorrow,

Temí

4. The ONLY tool you need for a successful online business

Beautiful *|Fname|*,

As your online business coach, I have to tell you this: There is ONE single tool that is very important for a successful online business.

In fact, this tool is so important that I spend nothing less than N5m every year just to have it.

I spend such a high amount of money because the success of my business depends on it.

So what is this all important tool?

It's a ten letter word: MENTORSHIP

YES! I spend well over N5m every year on mentorship.

Here's why:

When I began my online business, I had no mentor and I did a lot of things wrongly. This cost me a lot of money until something happened.

I encountered a mentor and we started working together and within 3 months of meeting him, my income multiplied by 6!

That was when my eyes opened!

|Fname|, permit me to reiterate that having a mentor is not a nice-to-have. It's a must-have!

Having a mentor would help you avoid making silly mistakes and save you from losing money.

I did not begin my business with a mentor and I regret it till today but I don't want the same thing to happen to you.

That is why I want to hold your hand and personally mentor you for a full month when you register for The Millionaire Housewife Starter Course.

I will personally ensure that you start making money within the first 30 days. But it doesn't end there.

If you don't make money from my mentorship during this period I will FULLY REFUND the money that you paid for the course. YES!

5: *|Fname|*, What Percentage Of 10 Billion Naira Do You Want?

|Fname|, what percentage of 10 Billion Naira do you want?

This is the question that has been on my mind to ask you.

Each time I think about the 100,000 plus people that are following me online, I am always fired up to help them because nothing breaks my heart more than seeing a woman like me being helpless and unable to cater for herself.

That is why I am taking the risk to expose a secret 10 Billion Naira business to you. Unbelievable right?

When I encountered this business, I also thought it was impossible until I was proven wrong with proof. So let me show you the proof.

According to MTN, the number of Nigerians that subscribe for data on their network per month is 20 million people.

Now there is no data plan that is lower than ₦500.

When you multiply 5×20 Million = 10 Billion Naira!

So how can you get your share of this 10 Billion Naira?

I have created a plan for myself, and I will show my plan right now because **|Fname|**, without a plan it is just a wish. So here's the plan:

I have decided to just get a minimum of 0.01% of the 10 Billion Naira. That is ₦1m every single month!

And my plan has always worked out perfectly!

So when will you have your share of this 10 Billion Naira?

By now, you know that every single minute that you delay before you register for the MTN Data Share course is a delay of your opportunity to start claiming your own percentage of the 10 Billion Naira.

Stop that delay now and click the link below to register:
